

MICROVASCULAR PROFESSIONAL CERTIFICATION PROGRAM
Standard Tuition & Fees Schedule

Naprapathic Assistant Program	Tuition	Registration Fee	Material Fees	Totals
QTR ~ 12 weeks	\$2,500	\$50.00	\$75.00	\$2,625
Total Program Fees				\$2,625

**fee schedule may change. Please verify with institution upon your enrollment for the most current fees and any additional costs if applicable.*

WITH DRAWAL AND REFUND POLICY:

A withdrawal slip must be completed and filed with the office of the Registrar before a student can be considered withdrawn.

Students withdrawing from classes prior to the first day of instruction are entitled to a full refund of tuition and fees less the \$50.00 registration fee.

Subsequent refunds are pro-rated as follows:

Withdrawals within the first week = 90% tuition refund	Withdrawals within the fourth week = 60% tuition refund
Withdrawals within the second week = 80% tuition refund	Withdrawals within the fifth week = 50% tuition refund
Withdrawals within the third week = 70% tuition refund	Withdrawals within the sixth week = 40% tuition refund

There will be NO tuition refund after the sixth week of class.

Lab fees which involve contractual obligations with other institution are therefore non-refundable.

Students withdrawing from the College because they have been called into Armed Services of the United States will receive a tuition credit to be applied to a retake of the course(s) when they returned from active duty.

Registration fees, payment plan fees, and matriculation fees are non-refundable.

Upon acceptance into the program, tuition for the NCNM MicroVascular Certification Program covers the cost of instruction, handouts, manuals, professional liability insurance, some materials and supplies.

The \$50 registration fee is for all students matriculating in the MicroVascular Certification Program. This ensures that a seat will be available to the student in the appropriate quarter. This fee will be applied to the tuition but is non-refundable.
